Self-employed borrower. Great deposits. Thin taxable income. Realtor wants yes today.

A**Give a fast maybe, then collect docs.**

Move now, clean later.

B**Test bank statement, DSCR, and full-doc paths.**

Find the real lane first.

C**Calculate income certainty conservatively.**

No soft math.

D**Tell the borrower what must be verified.**

Trust beats hope.

Jumbo file looks clean, but reserves are split and one deposit is unexplained.

A**Ask for missing statements and keep moving.**

Momentum matters.

B**Source it before submission.**

One clean package wins.

C**Check a more flexible product.**

The first lane may not be best.

D**Run upfront AUS now.**

The investor read is the trap.

Non-QM purchase. Good story. Eligibility is unclear upfront.

A**Call and pull out the real story.**

Context changes the file.

B**Decision it upfront before quoting confidence.**

Decision first.

C**Index investor lanes side by side.**

Show tradeoffs fast.

D**Move with a conditional path.**

Activity buys time.

Six locks expire Monday. Two clean, two messy, two suspiciously quiet.

A**Finish the cleanest first.**

Bank the wins.

B**Risk-rank the whole pipeline.**

Urgency needs order.

C**Call every borrower and partner.**

Control the room.

D**Open the messiest file first.**

The ugly one tells the truth.

Top referral partner asks: "Can this borrower qualify?" You think probably not.

A**"Give me ten minutes. I'll decision it."**

Fast, but real.

B**"Send it. I'll find the angle."**

Structure is the job.

C**"Here is why it fails, and what would change it."**

Clarity beats hope.

D**Pick up the phone.**

Bad news travels better human.
